DREER'S SUPERB ASTERS.

We take special pains to secure only the choicest Asters, and nothing better in quality can be had at any price; beware of low-priced stock, it is liable to be low grade at the same time.

For early flowering, Queen of the Market is used almost exclusively, although the earliest of all is the new Early Wonder. Snowdrift and Lavender Gem are also very early and very desirable. Our Superb Late Branching is in most demand for late, while for mid-season Ostrich Feather, Peony Perfection, Victoria and Washington, are all equally desirable.

AMERICAN GROWN ASTERS

The varieties offered on this page are all American grown and stand at the head of Asters for the American climate.

The stocks have all been grown under our own supervision and we know that the quality in every case is as fine as can be had at any price and much superior to what can be procured from most sources.

Dreer's New Aster "Pink Beauty."

A magnificent cut-flower variety, in bloom from early August until well on in September; 24 to 30 inches high; flowers average 4 inches across, on long, strong stems. Color a delicate bluish pink, and pronounced by experts to be the finest pink midseason sort yet introduced 50 \$4 00

Dreer's New Late Aster "Crimson King."

A superb new late-branching variety, with perfectly double flowers of rich, rosy crimson, full of fire. Fine for cutting, showing up well under artificial light 50 3 00

Crego's Giant Comet Asters.

Magnificent fluffy flowers, averaging over 5 inches across, with long strong stems; the finest of this type. Comes into bloom in August, continuing well into September, and, unlike most of the Comet sorts, stands when cut and is a good flower to ship. We offer two colors, our own saving, of the highest quality.

	Tr. pkt.	Oz.
Crego's Giant . Shell-pink	40	\$2 50
Crego's Giant . Snow-white	40	2 50

Early Wonder Asters

This is the earliest Aster in cultivation, being in full bloom when Queen of the Market is only in bud, frequently coming into bloom in late June. Flowers larger than Queen of the Market, borne on long, strong stems. Very valuable for cutting.

	Tr. pkt.	Oz.
Early Wonder White. Pure glistening white	40	\$2 00
Early Wonder Pink. A good, clear pink	40	2 00

CREGO'S GIANT COMET ASTER

Dreer's Superb Late Branching

The finest Aster for late August and September blooming. The plants form strong, branching bushes, 2 to 2½ feet high, bearing on long, strong stems their handsome Chrysanthemum-like flowers, which, under ordinary cultivation, average 5 inches across. The form of the flowers, together with the length of the stems, places them at the head of Asters for cutting. They come into bloom from two to three weeks after the average type, usually being at their best during September, and filling in the gap between the general run of Asters and Chrysanthemums. We offer eight beautiful and distinct colors, viz.

Five Fine American Asters.

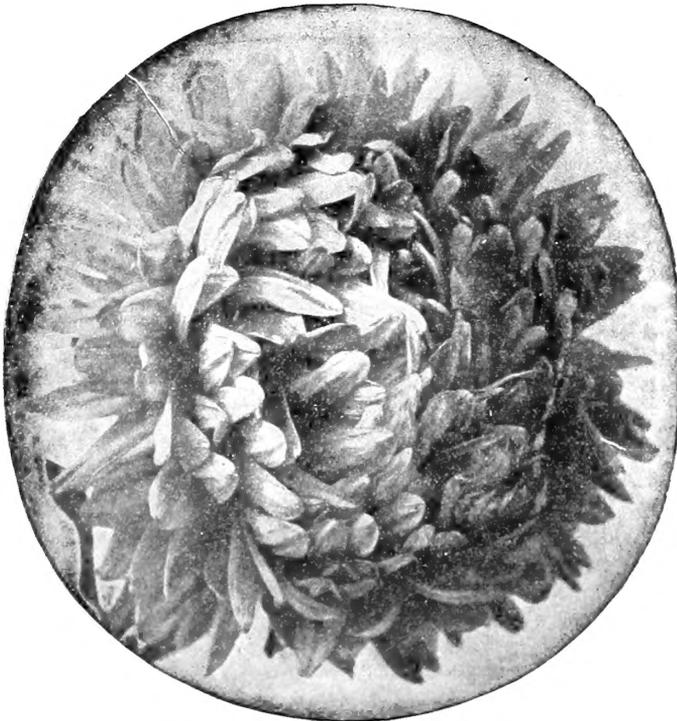

Daybreak. Of symmetrical growth; attains a height of 18 inches, and produces during August perfect globe-shaped flowers, of a delicate pink tint. 50 cts. per trade pkt.; \$2.50 per oz.

Purity. Identical in every way to Daybreak, but of pure glistening white. 50 cts. per trade pkt.; \$2.50 per oz.

DREER'S SUPERB DOUBLE-FRINGED PETUNIA

Petunia.

Our Riverton grown strain of Double and Single Fringed Petunia have long been celebrated as the best on the market. We keep continually culling out and hybridizing and thus maintain the high standard. We frequently test stocks from the world's best growers and can say, without fear of contradiction, that our own strain is by far the best to be had at any price.

Note.—We would especially call the attention of every florist who grows Double Petunias from seed that all the smallest and weakest seedlings should be saved, as they usually produce the finest double flowers. The same is true of the singles, the strong seedlings being inclined to "weediness."

Dreer's Superb Double Fringed. Our own unrivaled strain. Every seed saved at Riverton. 75 cts. per 500 seeds; \$1.50 per 1000 seeds.

Double Fringed Imported. Seeds are saved by one of the foremost European growers; the best that can be had abroad; \$1.00 per 1000 seeds.

Dreer's Superb Single Fringed. All our own saving from the finest large fringed flowers. 50 cts. per tr. pkt.; \$1.00 per 1/2 oz.; \$1.50 per 1/4 oz.

Stocks. (Gilliflower).

Thousands of Stocks are sold as pot plants and many more are grown for their flowers. Cheap grades are likely to prove largely single. Ours are grown specially for us by an expert, and will produce over 90 per cent. double flowers.

Cut-and-Come-Again Ten Weeks' Stocks.

Splendid perpetual-blooming class; sown in March or April they begin flowering in July, continuing until frost, and are especially valuable during September and October when other flowers are scarce; they throw out numerous side branches, all bearing very double fragrant flowers; excellent for cutting.

FRILLED TUBEROUS BEGONIA

TYPE OF NEW REX BEGONIAS

Tuberous-Rooted Begonias.

Through careful selection, every season sees an advance in the quality of these beautiful Begonias. Our stock is grown for us by one of the most eminent specialists in Belgium, whose strain is celebrated for its size, rich coloring, form and substance.

The price is as low as is consistent with good quality; the retail florist who is growing a few hundred bulbs for his spring trade, will find many of *the cheap strains offered dear at any price.* We offer but one quality, and that is the best.

Single. Scarlet, crimson, white, rose, yellow and orange. 40 cts. per doz.; \$2.50 per 100; \$22.50 per 1000.

Single Mixed. 35 cts. per doz.; \$2.25 per 100; \$20.00 per 1000.

Double. Scarlet, rose, white and yellow 60 cts. per doz.; \$4.50 per 100; \$40.00 per 1000.

Double Mixed. 50 cts. per doz.; \$4.00 per 100; \$35.00 per 1000.

New Hybrid Tuberous Begonias.

Duke Zeppelin. Pure rich scarlet. 85 cts. per dozen; \$6.00 per 100.

Lafayette. Brilliant crimson scarlet. \$1.25 per dozen; \$8.00 per 100.

Frau Helene Harms. A new primrose yellow variety. 30 cents each; \$3.00 per dozen.

Frilled Tuberous-Rooted Begonias.

Beautifully frilled on the edges similar to the newer forms of Petunias. Strong bulbs in scarlet, white, pink and yellow. \$1.00 per dozen; \$7.00 per 100.

New Double-fringed Tuberous Begonias.

Identical in every way with the best types of double Begonias, of large size, full double form and brilliant color, but the edges of the petals are deeply cut or serrated, adding a most desirable character of lightness to the flower. We offer three distinct colors—white, rose and scarlet. 15 cents each; \$1.50 per dozen.

New Rex Begonias.

Four beautiful new varieties, entirely distinct from anything heretofore offered.

Pearley Sander. A revelation in its unique markings, the centre of the leaf as well as the edge being a deep olive-green with a zone of silvery-grey, the whole relieved by a suffusion of indescribable rosy-crimson extending throughout the leaf.

His Majesty. Ground color silvery-grey with dark green veins, which are bordered with rosy-purple; edge bordered green.

Kaetchen Schadendorf. Foliage not large but of great beauty, the ground color being silvery-white, suffused and illuminated with bright rosy-crimson sheen, with a large blackish-green centre and border of same color.

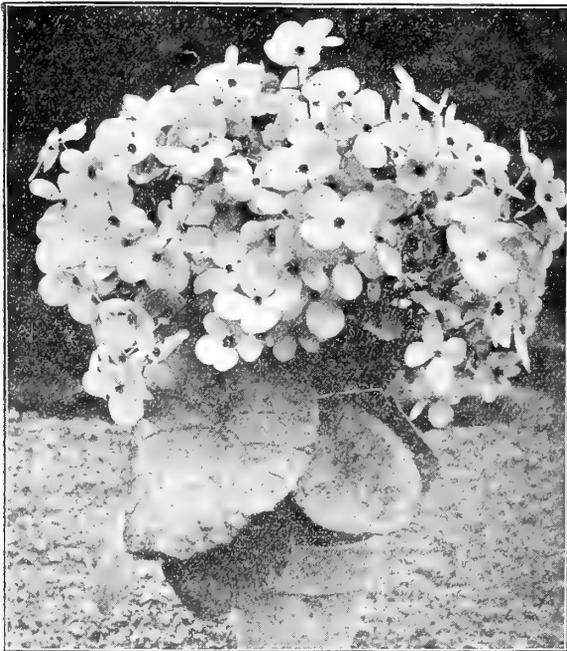

Mrs. S. H. Moon. Centre of leaf and a broad margin of black-green suffused with purple, with a large, distinct zone of old silver which is delicately dashed with rose.

30 cts. each. One each of the 4 sorts, \$1.00.

Rex Begonias.

Standard Sorts.

A splendid collection, good plants in 3-inch pots. \$1.25 per doz., \$8.00 per 100.

NEW BEGONIA "GLORY OF CINCINNATI"

**New Lorraine Begonia
Glory of Cincinnati**

A variety which promises to supersede all the Lorraine sorts yet introduced.

A strong, robust grower, with individual flowers much larger than any other of this type, in color it is a most beautiful shade of soft satiny pink, it is easy to propagate and easy to grow, and can be grown into a beautiful, finished specimen even in a four-inch pot; it blooms from October to April, but the most important point in its favor is the fact that it retains its flowers much better as a house plant and under these conditions will outlast all the other varieties, making it the ideal sort for the retailer to handle.

We offer for delivery early in July originator's stock from 2 1/4-inch pots, \$1.00 each; \$9.00 per doz.; \$50.00 per 100.

Lorraine Begonias.

Gloire de Lorraine and Pink Lorraine.

We are now booking orders for these varieties for June delivery, all in stock which has been propagated from leaf cuttings, which is far superior to plants grown from cuttings in the ordinary way. 2 1/4-inch pot plants, \$2.00 per dozen; \$15.00 per 100; \$140.00 per 1000.

The flowers are large, with broad, well-rounded petals, and are produced in the greatest profusion on $3\frac{1}{2}$ feet high branching stems. They are of a creamy-white when first opening, changing to almost a pure white. 75 cts. per dozen; \$5.00 per 100.

The flowers are of a bright crimson-scarlet, often measuring five inches across, of remarkable substance and durability, and are produced in large trusses, nearly a foot across. NEPHROLEPIS SCHOLZELI

FINE FERNS—Varieties of Special Merit.

Nephrolepis Scholzeli (Crested Scott Fern).

This variety was offered by us for the first time last June, and has met with full favor and has made a permanent place for itself. It is the ideal crested Fern, holding the same position to all other crested varieties that Scottii holds to the old Boston. It is a sport from Scottii, possessing all the merits of that most popular variety, but with the pinnae sub-divided, giving it a neat crested appearance. The fronds, like in Scottii, stand erect, with a graceful arch forming a plant of ideal shape, and they never break down, giving the plant a ragged appearance as is so often the case with all other crested forms; furthermore, the loose, elegant arrangement of the fronds, allowing a free circulation of air, prevents the centre of even the largest specimen from becoming defective or yellow, which is one of the weak points of all of its predecessors.

- 2 1/4-inch pots, \$1.25 per dozen; \$8.00 per 100; \$75.00 per 1000.
- 4 " " 3.50 " 25.00 "
- 5-inch pans, 4.50 " 35.00 "
- 6 " " .75 cts. each. 8-inch pans, \$1.50 each.
- 10 " " \$2.50 each.

Nephrolepis Whitmani.

(The Improved Ostrich Plume Fern.)

- 2 1/4-inch pots, 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1000.

Nephrolepis Bostoniensis (The Boston Fern).

- 2 1/4-inch pots, 60 cts. per doz.; \$4.00 per 100; \$35.00 per 1000.

Nephrolepis Scottii (The Scott Fern).

- 2 1/4-inch pots, 60 cts. per doz.; \$4.00 per 100; \$35.00 per 1000.
- 6 " " 50 cts. each

Nephrolepis Superbissima.

Entirely distinct from all other crested forms, the fronds being heavily imbricated with the pinnae overlapping, making them very dense and compact. In color it is of a rich, dark green, of sturdy habit; the fronds being firm and rigid, never break down.

- 2 1/4-inch pots, \$2.00 per dozen; \$12.00 per 100.
- 4 " " 3.00 " 20.00 "
- 6 " " 9.00 " 50.00 "

Nephrolepis Elegantissima Compacta.

A dwarf, compact form of N. Elegantissima, forming a dense, bushy, compact plant of ideal shape; a valuable addition to this class.

- Strong plants from 2 1/4-inch pots, \$3.00 per dozen; \$20.00 per 100.

- " " 6 " 10.00 " 75.00 "

Adiantum Croweanum.

We are the sole distributors of Mr. Crowe's stock of this valuable fern.

This is not only the best and most profitable Maiden-hair to grow for cutting, but it is also the best variety to recommend to the retail buyers for house culture, it standing the dry atmosphere of the room better than any variety we have yet tried.

- Strong, 3-inch pots, \$2.00 per dozen; \$15.00 per 100; \$140.00 per 1000.

Adiantum Farleyense.

Adiantum Æthiopicum.

A tall growing Maiden-hair which is extensively cultivated in France where it is used in large specimens for decorative work. Strong, 4-inch pots, 25 cents each; \$2.00 per dozen.

Asplenium Nidus Avis (The Bird-Nest Fern).

- A nice thrifty lot in 3-inch pots, 30 cents each; \$3.00 per dozen.
- 4-inch pots, 40 cents each; \$4.00 per dozen.

Cibotium Schiedei.

We offer a lot of good 6-inch pots of this, the most valuable of all decorative ferns, \$1.50 each.

Platycerium (Elk's Horn Ferns).

- Alcicorne \$0.75 each. Stemmaria \$1.25 each.
- " Majus 1.00 " Veitchii 1.00 "
- Angolense 2.00 " Willinckii 2.00 "
- Grande 2.00 "

Pteris Childsi.

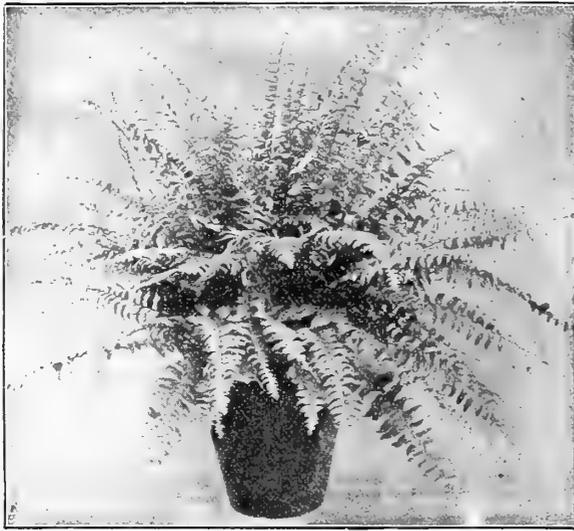

This beautiful variety is to Pteris what Farleyense is to Adiantums, and like that variety produces no spore, so that propagation is by the rather slow method of division, which will keep it a rare variety. The plant is of strong growth, attaining a height of about 20 inches; fronds large, pinnae deeply dentated and undulated, tips crested. Makes a beautiful specimen for exhibition. We offer a limited lot in 4-inch pots, 75 cents each.

Ferns in Flats.

These flats contain about two hundred plants each, only one variety being in a flat and we cannot supply less than a full flat of any one sort. Price, \$2.00 per flat.

SELECT ROSES.

The Roses which we here offer are, with few exceptions, field grown stock either American grown or plants that have been imported from England and Ireland.

These plants are all potted up during December and January, stored in cold houses, so that they break away naturally in spring, making this the best possible stock for selling to the retail customer.

The prices noted are for strong plants in 5 and 6-inch pots (according to the growth of the variety) for delivery during April and May, and while we will make shipments earlier if requested, we prefer to book orders for these months only.

HARDY PERENNIAL PLANTS.

Hardy Perennials have for many years been one of our leading specialties, and our stock both in quantity and quality, as well as in extent of variety is not equaled in this country.

Many planters not thoroughly familiar with this class of plants have an idea that nothing but a large, field-grown clump will give satisfactory returns the first season. This, as experience has taught us, is in most instances, a mistake. A vigorous plant of proper size will, in nearly every case, give quicker and better returns than the best so-called "field clumps" that can be procured. It will be noticed that the majority of the stock offered in this list is described as being 3, 4 or 5-inch pots. This does not necessarily mean that the plants have been altogether pot-grown, but that they have been field-grown and dug and potted up during the Fall and early Winter months, and such stock can be planted, even late in the Spring, with practically no loss, which, in the case of clumps, is often quite serious.

Iris Interregna.

(Introductions of Goos & Koenemann.)

An interesting new type of Iris, the result of crossing Iris Germanica with I. Pumila Hybrida, and for which there promises to be a great future. They flower earlier in the season than the German Iris, and while the flowers are of the most approved and perfect form, they also combine large size with the most beautiful and decided clear colors. The foliage is dwarf and healthy, holding its freshness throughout the season; the flower stems which are about 18 inches high, hold the flowers well above the foliage.

Halfdan. The entire flower is of a pure creamy-yellow, of absolutely perfect form.

Helge. Light citron yellow with pearl colored centre, a beautiful soft color.

Ingeborg. Both standards and falls are pure white; the flowers are five inches deep and have petals 2 inches wide; a grand perfect flower.

Wallhalla. Standards rosy lavender, falls claret red; a most distinct and beautifully formed flower.

Price, 50 cents each; \$5.00 per dozen; the set of 4 varieties for \$1.75.

Iris Pallida.

Pallida Dalmatica. One of the finest of the Germanica type. The plant is of strong habit, growing 4 feet high, with exceptionally large flowers, the standards of a fine lavender, the falls lavender shaded blue; fine for massing. 15 cents each; \$1.50 per dozen; \$10.00 per 100.

Pallida Dalmatica Folia Variegata. A variety of above, with the foliage strikingly and conspicuously variegated, with broad bands of creamy-yellow. 35 cents each; \$3.50 per dozen.

Pallida Dalmatica Folia Argentea Variegata. Identical with the foregoing, except that the variegation instead of being yellow is of a silvery white; very pretty. 50 cents each; \$5.00 per dozen.

Iris Pumila Hybrida.

A cross between the dwarf early-flowering I. pumila and the large-flowering I. germanica. Their period of flowering is a trifle later than the pumila section, with flowers almost as large, showy and attractive as the German Iris.

The Bride. This is without question the prettiest dwarf white Iris yet introduced. The flowers which are of ideal form, on first opening are of a creamy white color, changing to pure white as they mature. They are produced on stems from 10 to 12 inches high, which appear in great profusion early in May. 25 cents each; \$2.50 per dozen; \$18.00 per 100.

Cyanea. Rich royal purple, with blackish shadings.

Eburna. Pure white, with creamy white shadings.

Florida. A beautiful lemon-yellow, shaded darker.

Formosa. Upper petals deep violet-blue, lower petals light violet. \$1.50 per dozen; \$10.00 per 100.

These are not so well known as they deserve; they are of free, vigorous growth, and can be flowered in pots in early spring, and respond quickly to forcing when placed in a temperature of 50 degrees, forming pretty pot plants in a short time, making excellent window plants, which meet with ready sale when in bloom.

(Red-hot Poker, Flame Flower, or Torch Lily.)

The introduction of early, free and continuous-blooming varieties has made this one of the great bedding plants, and when we consider that, outside of Cannas and Geraniums, there are few plants which are suitable for massing under our climatic conditions, it is little wonder that such excellent subjects should at once become popular.

R. Wilson Kerr. One of the finest; an early continuous bloomer. Color, rich brilliant orange-scarlet. 50 cents each; \$5.00 per dozen.

Obelisque. Large spikes of saffron yellow, with brighter shadings; July and August; 3½ to 4 feet. \$1.50 per dozen; \$10.00 per 100.

Pfitzerii. (*The Everblooming Flame Flower.*) The freest-flowering variety; in bloom from August to November, with heads of bloom over 12 inches long, of a rich orange scarlet, producing a grand effect either planted singly in the border or in masses. \$1.25 per dozen; \$8.00 per 100; \$75.00 per 1000.

Quartiniana. This novel variety flowers during the latter part of May and June in spikes 10 to 12 inches long, orange red when first opening, the lower part changing to yellow when mature; 3½ to 4 feet. 35 cents each; \$3.50 per dozen.

Saundersi. Deep coral red, changing to chrome yellow; in flower throughout July and August; 3 feet. 25 cents each; \$2.50 per dozen.

Triumph. A remarkably strong growing variety that produces from August to October flower heads from 12 to 16 inches long, on stems, 4 to 5 feet high, and are entirely distinct in color, being of a rich, deep saffron yellow shaded orange red; unique. 25 cents each; \$2.50 per dozen.

Tricolor. The buds are first cochineal-red, changing to canary yellow as they develop, finally opening a sulphur white; very free-flowering; August to October; 2½ feet. 15 cents each; \$1.50 per dozen; \$10.00 per 100.

Tuckli. Bright orange-yellow; early in July; 3 to 4 feet; 20 cents each; \$2.00 per dozen; \$15.00 per 100.

Uvaria Grandiflora. The old-fashioned late flowering sort; spikes 3 to 5 feet high, flowers rich ochre red, passing to salmon pink. \$1.25 per dozen; \$8.00 per 100; \$75.00 per 1000.
